(1) Explanation Regarding Results of Operations

During the first quarter of the fiscal year under review, sales of semiconductors and electronic components-related products remained strong, driven by robust demand. (3) Notes to Consolidated Quarterly Financial Statements

(Notes on Going Concern)

Not applicable.

(Notes on Significant Changes in the Amount of Total Shareholders' Equity)

Not applicable.

(Changes in Status of Significant Subsidiaries During the Quarter)

Duramark Products, Inc. acquired during the first quarter of the fiscal year under review (date of acquisition: April 1, 2021. The name of the company was changed to Mactac, Inc. as of April 8, 2021) is included in the scope of consolidation from the first quarter.

(Change in Accounting Principles)

(Application of the Accounting Standard for Revenue Recognition, etc)

The Company started to apply the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29 dated March 31, 2020; hereinafter, "Revenue Recognition Accounting Standard"), etc. at the beginning of the first quarter of the fiscal year under review. Under this standard, revenue is recognized, when the Company transfers the control of a promised good or service to a customer, in an amount that the Company expects to receive in exchange for such good or service.

Accordingly, in charged supplying transactions in which the Company purchases raw materials, etc. from a customer, conducts processing and sells the finished good to the customer, only an amount equivalent to processing costs, excluding purchase prices of raw materials, etc., is recognized as a net amount of revenue, compared to the previous method of recognizing revenue based on a total amount including purchase prices of raw materials, etc.

In charged supplying transactions with repurchase obligations, the Company has changed to a method of not to recognize extinction an item supplied for a fee, while in the previous method such supplied item was recognized extinction. In export sales, compared to the previous method of recognizing revenue on a shipping basis, the Company has changed to a method of recognizing revenue when risk burden is transferred to a customer according to trade conditions specified by Incoterms, etc.

Regarding compensation paid to a customer, including sales cooperation money, it is now deducted from net sales, compared to the previous method of posting as selling, general and administrative expenses.

The Revenue Recognition Accounting Standard is applied according to the provisional measures stipulated in the proviso in Paragraph 84 of the standard. With respect to the application of a new accounting principle, it is applied to the balance of retained earnings at the beginning of the first quarter of the fiscal year under review. This balance of retained earnings is obtained through calculation using the cumulative amount of the impact from retrospective application of the new accounting principle to periods prior to the beginning of the first quarter, either by adding it to or deducting it from the retained earnings.

As a result, net sales, cost of sales, selling, general and administrative expenses, operating income, ordinary income and profit before income taxes for the first quarter of the fiscal year under review decreased by 2,844 million yen, 2,782 million yen, 24 million yen, 37 million yen, 21 million yen and 21 million yen, respectively. The impact on the balance of retained earnings at the beginning of the fiscal year was minor.

With the application of the Revenue Recognition Accounting Standard, etc. "trade notes and accounts receivable" posted under "current assets" on the balance sheet of the previous fiscal year is posted as "notes and accounts receivable - trade and contract assets" from the first quarter of the fiscal year under review. In accordance with the provisional measures stipulated in Paragraph 89-2 of said accounting standard, reclassification of reported amounts for the previous fiscal year has not been made to conform with current classifications.

(Application of the Accounting Standard for Fair Value Measurement, etc.)

The Company started to apply the Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30 dated July 4, 2019; hereinafter, "Fair Value Measurement Accounting Standard") at the beginning of the first quarter of the fiscal year under review. It also decided to apply new accounting principles set by the Fair Value Measurement Accounting Standard for the future, in accordance with Paragraph 19 of the Fair Value Measurement Accounting Standard and provisional measures stipulated in Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10 dated July 4, 2019). There is no impact on the quarterly consolidated financial statements.

(Application of the FASB Accounting Standards Updates No. 2020-05: Leases)

From the beginning of the first quarter of the fiscal year under review, the Company's consolidated subsidiary in the United States applies the FASB ASU No. 2020-05: Leases (the "Standards"). Accordingly, lessees will recognize all leases as assets and liabilities, in principle. In applying the Standards, the Company complies with the provisional measures and has adopted the method of recognizing amounts of accumulated impact by the change of accounting principle on the starting date of such application.

As a result, as of the end of the first quarter of the fiscal year under review, "property, plant and equipment," "other" under current liabilities and "other" under non-current liabilities increased by 808 million yen, 259 million yen, and 569 million yen, respectively. The impact on the profit and loss in the first quarter of the fiscal year under review was minor.
